

NO RECORD SET BUT THURSDAY HOT

According to Weather Man Average Was Maintained, But the Rainfall Was Shy About Half an Inch.

Mr. Temperature was no come-back Thursday for he failed to equal his record for July set on Wednesday by five degrees. Along about 2 o'clock Thursday afternoon he put forth his greatest efforts but the best he could do was to reach the 91 mark, which in passing it might be well to state that there were few negative answers to that old one "Is it hot enough for you?"

Wednesday set the record for the entire month of July. While the past month seemed hotter than some of the Julys we have known, it was not above the average according to the monthly report of Henry Swain, official recorder of St. Joe county weather.

The average for the month was 74.4 which is about the average for all Julys. There were several hot days during the month and also a few cool ones. The coolest days of the month was on July 25 when the temperature fell down to the 76 degree mark. This cool spell lasted for a few days and it seemed like it was going to last for sometime but like all good things it was too good to last.

While the temperature was about the average the rainfall for the month fell below the mark set by other Julys. During the month there were 2.10 inches of rain. The average for the month is around 3.60. The half an inch would have been welcomed by the farmers and by even the amateur gardeners of the city.

June was one of the driest months experienced in some years. This set local crops backward and the lack of an average rainfall in July did not help matters. The supply of garden truck is limited and as a result the dealers are demanding a good price for vegetables.

Prices this year are almost three times as high as they were last year. Beans are selling for 13 cents a pound compared to five cents last year. Tomatoes are beginning to arrive on market but they are by no means as plentiful as they were last year. Cabbage plants are feeling the effects of the hot sun and the crop will be short.

Potatoes are expected to be high this fall. The crop is damaged to a great extent and it is expected that the price will go as high as it did a couple of years ago. Many farmers are predicting that it will go higher.

STORM HITS CAPITAL.
INDIANAPOLIS, Ind., Aug. 1.—A thunder storm that approached cyclonic proportions did much minor damage in Indianapolis and vicinity late Thursday but caused a drop of 27 degrees in temperature to 69 in an hour's time. Plate glass windows throughout the business section were blown in and houses unroofed in the residence section where trees were torn to pieces. Street car service was stopped for a short time and telephone and telegraphic communication destroyed. Storms all over the state today brought relief from the heat wave, that caused much suffering since Monday.

EIGHT BABIES DIE.
CLEVELAND, O., Aug. 1.—There was cessation in the hot weather in Cleveland and vicinity Thursday. The highest temperature was 84 degrees at 11 a. m. Eight babies and three adults have died during the last 24 hours as the result of the heat.

DETROIT, Aug. 1.—Fourteen deaths attributed to excessive heat were reported to the health board Thursday. Of the victims, ten were young children. The maximum temperature recorded at the city observatory was 98 degrees at 2 p. m.

MILLION DOLLAR LOSS AS RESULT OF BLAZE

Fire at Allentown, Pa., is Still Burning Although It is About Under Control.

ALLENTOWN, Pa., Aug. 1.—Fire which broke out shortly before midnight in the plant of the S. Flory Manufacturing Co. destroyed property valued at nearly \$1,000,000 and was still burning fiercely at 1:30 o'clock this morning. Besides the Flory Manufacturing plant, the Flory Milling Co.'s plant, a furniture store and four residences have been destroyed. The firemen were handicapped by a shortage of water and when it was realized that the fire was beginning to get beyond control an appeal for assistance was sent to Austin. An open ground surrounds the fire and it is hoped the firemen will be able to prevent a further spread of the flames. Six hundred men will be thrown out of employment through the destruction of the Flory plants.

HERE IS A ROBIN THAT REMEMBERS BENEFACTOR

ELKHART, Ind., Aug. 1.—While walking about in the yard of her home early this spring, "Aunt Lizzie" Handbill, who lives on Bristol st. just outside the corporation limits, found a tiny robin which had fallen from its nest. She took the little waif into her home and cared for it until it was strong enough to fly. Now, evidently showing its appreciation, the robin pays Mrs. Handbill a visit every evening. "Aunt Lizzie" is fond of cats also, and every stray cat can find a welcome in her home. However, when the robin pays its daily visit all of the felines are shut in the cellar. The robin first makes itself known by twittering in a tree close to the house. This is the signal for the cat's entry into the cellar. Mrs. Handbill then beckons to the robin, which enters by an open door or screen, flies from one room to another, finally landing on a cage of canaries. The visitor at last takes his leave and flies into the woodshed, where he roosts until early morning.

GOVERNMENT WILL HELP MOVE CROPS

Twenty-five to Fifty Millions to be Deposited in the National Banks in the South and West at Once.

WASHINGTON, Aug. 1.—Twenty-five to fifty million dollars of government funds will be deposited in the national banks of the south and west at once by Secy. McAdoo to facilitate the movement of crops. Federal, state and municipal bonds and prime commercial paper will be accepted as security for the money, which the banks will pay two per cent interest.

The motive of Secy. McAdoo in establishing this policy is to anticipate the money stringency in the late summer and fall, which invariably accompanies the marketing and movement of crops, especially when they are unusually large as the harvest now beginning forecasts. He intends to take time by the forelock and prevent or minimize the usual tightness of money.

In a statement Thursday night, the secretary made the significant announcement that government bonds would be accepted at par as security for the new deposits, and that the additional money would be placed only with banks which have taken out at least 40 per cent of their authorized circulation. The United States two per cent. bonds, serving as security for most of the national bank circulation, have depressed recently to new low market records, dropping to 95 3-4 during the last few days.

The secretary's willingness to accept these bonds at par as security for the 25 to 50 millions of promised deposits, and the inducement to the national banks to increase their circulation up to the 40 per cent. limit, is expected to help in restoring the parity of the depressed 2s by creating a new market for them.

Will Accept Paper.
For the first time in history the government will accept prime commercial paper as security for deposits. This privilege will be granted, the secretary announced, in order to make these special deposits available to banks on security readily within their reach.

"The commercial paper submitted," Mr. McAdoo added, "shall first be passed upon and approved by a clearing house committee of the cities in which the bank offering such paper may be located. All commercial paper and bonds must finally be passed upon and accepted by the secretary."

Approved commercial paper will be accepted as security for the deposits at 65 per cent. of its face value and high class state, municipal and other bonds, exclusive of government bonds, at 75 per cent. of their market value.

The additional deposits will be placed with the national banks in the two or three principal cities in each of the states where harvesting is now in progress, and where the demand for money for moving the crops most conveniently can be met. The secretary said it would not be practicable to scatter the deposits among the smaller cities.

The banks will be required to return the money to the public treasury when the crops have been moved. The present suggestion is Mr. McAdoo said, that 15 per cent. be repaid in December, 30 per cent. in January, 30 per cent. in February and 25 per cent. in March.

"Steps are now being taken to carry out the plan," the secretary added, "so that the funds may be promptly available for the movement of the crops."

POLITICAL JOB.

PETERSBURG, Ind., July 31.—Gus B. Taylor, son of ex-Congressman A. H. Taylor, has accepted the position of electrical expert for the public service commission of Indiana, worth \$2,500 a year.

Patrick J. Houlihan, with offices at No. 113 South Michigan Street, Democratic candidate for City Judge at the Primaries to be held August 6th, has been a resident of this city all his life.

He has been engaged in the active practice of his profession seventeen years. He has been a tax payer twenty years.

He has never held any political office.

Mr. Houlihan earnestly solicits your support at the primaries August 6th.—Ad.

SAILORS BROS CO

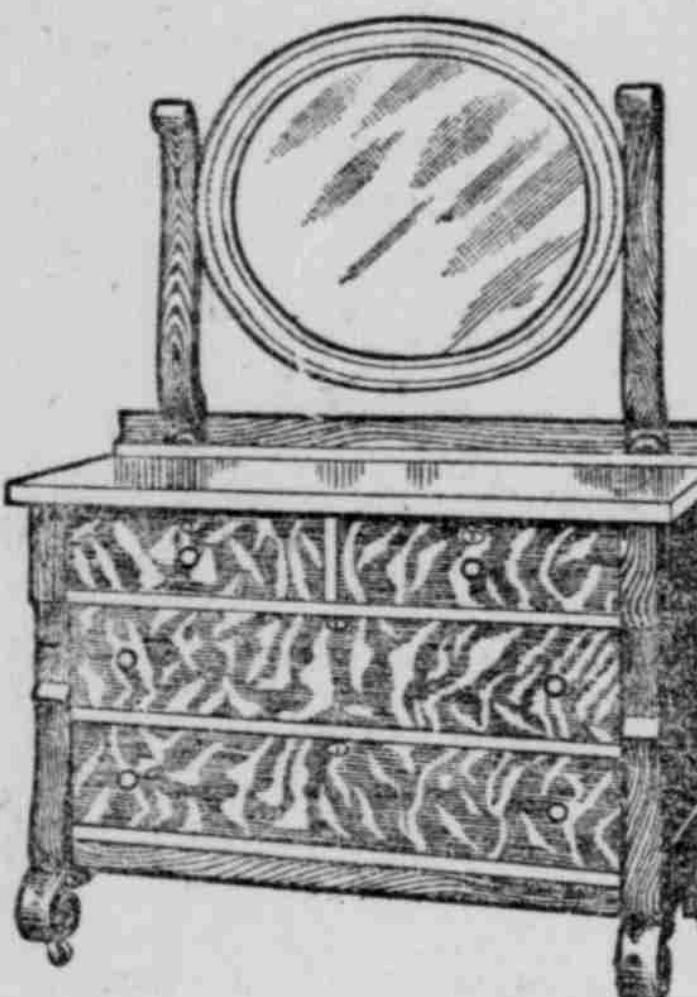

One Dollar Will Open an Account at Sailors' Great One Dollar Sale This is Positively the Last Week

It makes no difference whether you want a complete outfit or just a new piece or to replace the old ones. This Dollar Sale offers unequalled advantages in both price reductions and special terms. Our stocks are crowded to the limit and we are making these inducements to move them quickly. The Sailors' Stores Dignified Credit System protects you when you are sick or out of work. Surely you are not going to pass this great opportunity, are you?

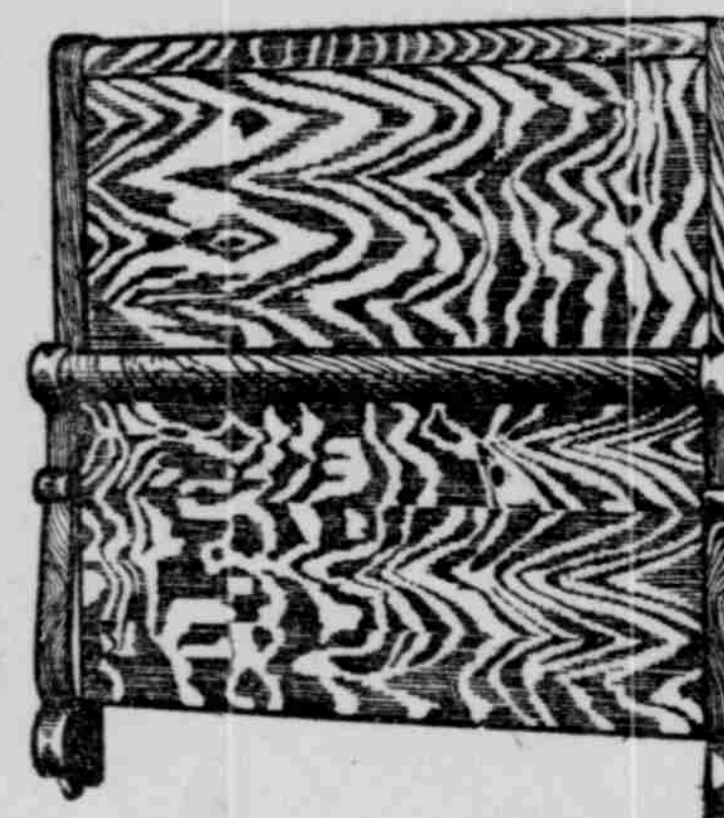

3-Piece Colonial Bed Room Suite, \$90.00 value \$69.00

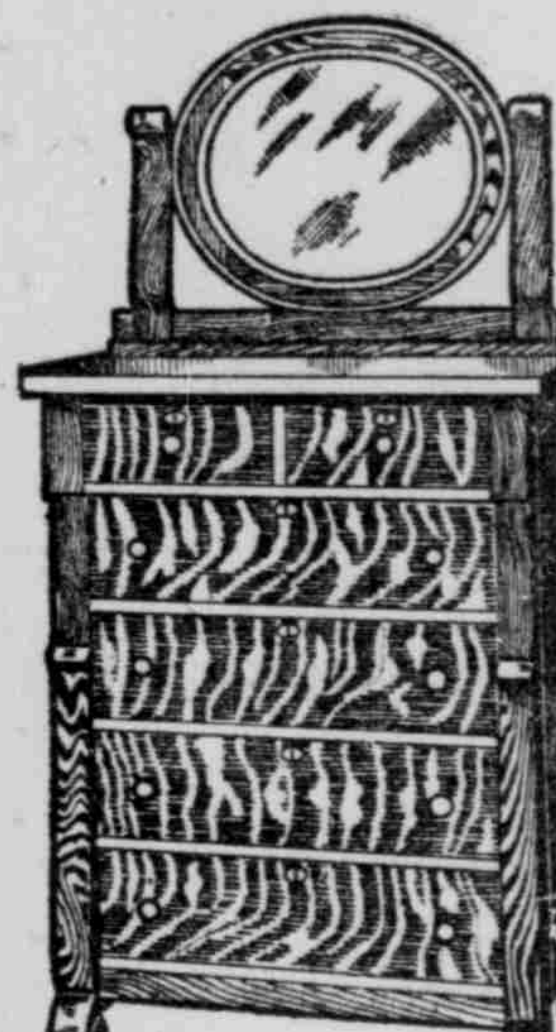

Dresser \$12.50 Value \$7.85

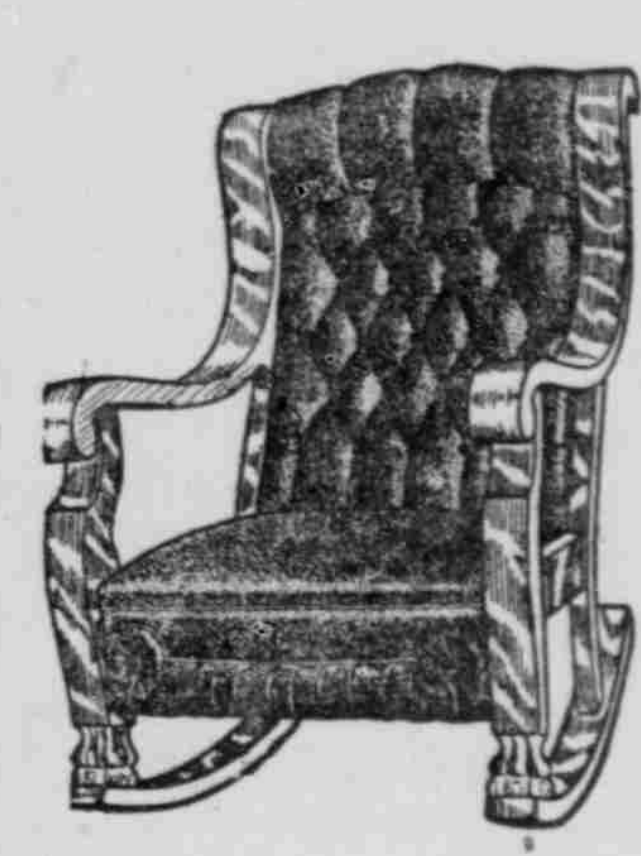

\$35.00 Dresser \$27.50

\$25.00 Bed \$19.85

\$30.00 Chiffonier \$24.85

Rocker \$18.50 Value . \$12.75

This Bed is a reproduction of the famous old colonial beds—the style is again in prominence and a popular seller. It is made of solid oak—very massive and strong.

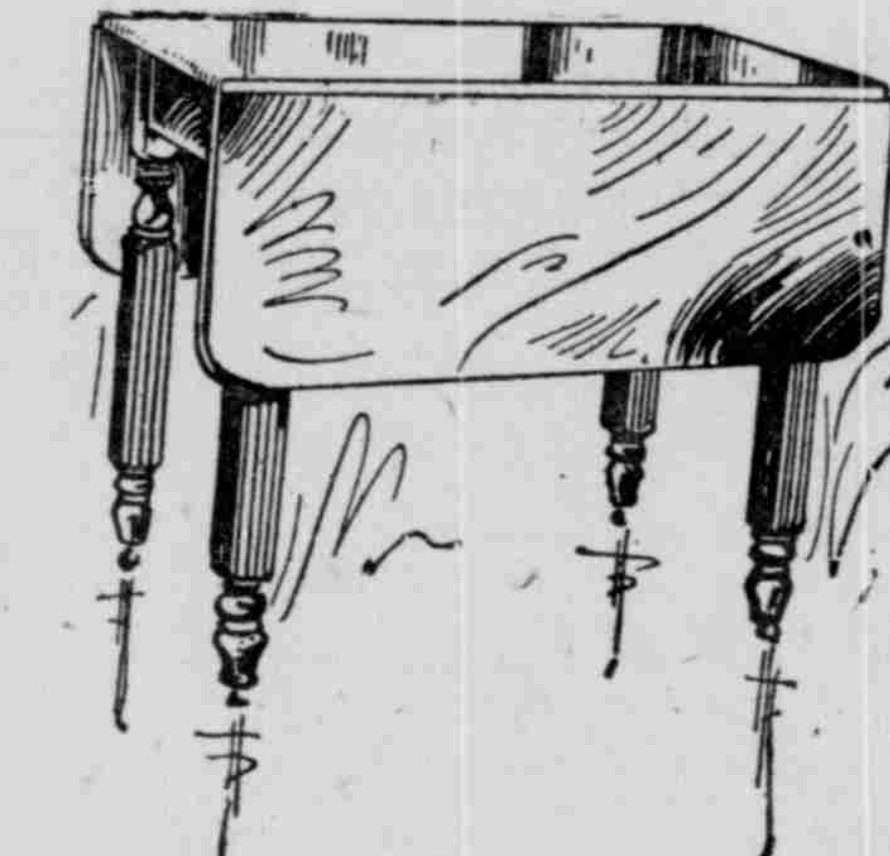

The Chiffonier is made to match balance of suite, being massive, well made and finished—has French plate mirror—size 20x16 inches—surely this is a grand opportunity to own a fine solid oak bed room suite.

Regular Price 32.50, Sale Price . . \$21.75

A Better Value Never Offered in Brass Beds.

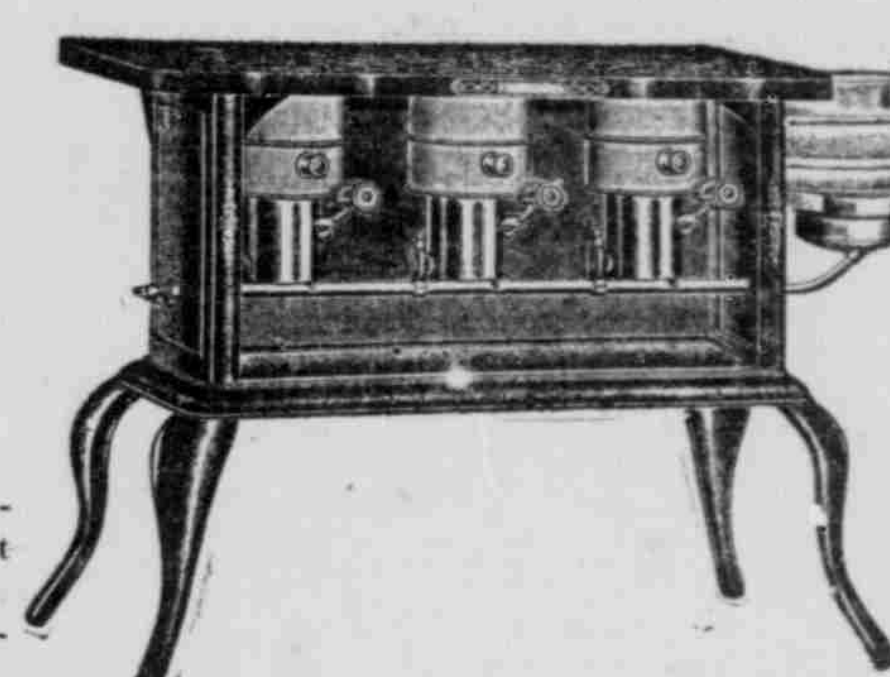

Than this wonderful bargain shown here. This style will please the most discriminating taste. It will heighten the effect of the most handsomely furnished chamber. It is made of high quality brass—has massive two-inch continuous tubing and six 5-8 fillers. Furnished in full size 4ft. 6in. and 6 ft. 6in. long. Has several coats of French lacquer and guaranteed for ten years.

Breakfast Table \$2.98

It is made of solid oak, nicely finished, has two large roomy drop leaves, very strong and rigid. This table is very often used as a breakfast table.

Splendid Oil Stove \$9.85 to \$13.50

Built on correct, scientific principles. Built of the best material by skilled and careful workmen.

TWO BURNER STYLE.

Its simplicity makes the appearance attractive and pleasing. It is easily cleaned. The burner is very different and far superior to that used on any other style of oil stove. Nothing else like it. It automatically generates gas from kerosene oil, mixing it with air. The combustion is perfect. Burns like gas. Intense hot fire. It is odorless and smokeless as the kerosene oil lamp. The construction is durable as well as efficient. The flame may be instantly controlled by the operator.

TWO MORE KILLED IN MOTORCYCLE ACCIDENT

WATERTOWN, N. Y., Aug. 1.—Two persons were killed Thursday evening in an accident during a motorcycle race held in the old home week celebration of the village of Russell, St. Lawrence county. The dead are Luther Gilbert, 23 years old, a motorcycle rider, and Irvin Bartholomew, 40 years old, a spectator.

The race was run through the main street of the village. Gilbert and Charles Harpstein, the participants, were speeding at a rate of about 50 miles an hour, when Gilbert's machine struck a cross walk and hurled him to the road, killing him instantly. Bartholomew rushed into the road to drag the fallen cyclist out of the way of the other machines, when Harpstein's machine struck him.
